PROFESSIONAL SUMMARY

Entry-level Oracle SQL and PL/SQL Developer with hands-on experience in database design, SQL query development, and PL/SQL programming. Worked on projects involving stored procedures, triggers, cursors, window functions, and query optimization. Familiar with normalization, ACID properties, and relational database concepts. Looking for a SQL Developer or PL-SQL Developer role.

TECHNICAL SKILLS

Databases: Oracle Database, PostgreSQL

Languages: SQL, PL/SQL

SQL: DDL, DML, DCL, TCL, Joins, Subqueries, Constraints, Indexes, Views, Sequences, Window Functions, Normalization, ACID Properties, Query Optimization

PL/SQL: Block Structure, Procedures, Functions, Triggers, Cursors, Exception Handling, Dynamic SQL

Tools: Oracle SQL Developer, SQL*Plus, PostgreSQL Workbench

PROJECTS

Property Management System – Oracle SQL & PL/SQL (Jan 2025 – Apr 2025)

Designed normalized database tables, developed stored procedures for booking and payment processing, implemented triggers to enforce business rules, improved query performance using indexes, and created views for reporting.

Employee Management System – Oracle SQL & PL/SQL (Jun 2025 – Aug 2025)

Developed SQL queries using window functions for employee ranking, implemented explicit cursors for record processing, and applied exception handling to manage runtime errors.

Cafe Management System – Java, JDBC, SQL (May 2024 – Sep 2024)

Developed backend logic using Java Servlets and JDBC, designed relational database tables, performed CRUD operations using SQL, and built responsive UI using HTML, CSS, and JavaScript.

EDUCATION

Bachelor of Technology (BTech) – Computer Science and Engineering

Nana Saheb Mahadik College of Engineering, Maharashtra (Oct 2022 – Aug 2025) | CGPA: 7.84

Higher Secondary Education – Balaji Madhyamika Vidyalaya, Ichalkaranji | 85%

KEY SKILLS

Oracle SQL Development, PL/SQL Programming, Database Design, Query Writing, Debugging, Problem Solving, Analytical Thinking
